

ITIL® V2 Foundation 2-Day Course (Without Exam)

Overview

The ITIL® Foundation Course introduces participants to the principles and core elements of the process-oriented approach to IT Service Management according to the ITIL® framework of best practices.

In this two-day (14 hours total) course, the 10 ITIL® processes and one function of the *Service Support* and *Service Delivery* volumes are described, as well as their goals, objectives, benefits, roadblocks and interdependencies. Material is taught at an accelerated pace, while still providing time for discussion and short exercises. A take-home sample examination with a detailed answer key is always provided.

Objectives

- Learn the basics of IT Service Management
- Understand the main processes of ITIL®'s *Service Support* and *Service Delivery* books, as well as their relationships, benefits and challenges
- Understand how these processes contribute to making an IT organization manageable
- Learn the most important ITIL® definitions
- Gain access to a standardized vocabulary
- Upon completion, students will be prepared to take the EXIN ITIL® Foundation exam on their own, at a Thompson Prometric or Pearson-VUE testing center of their choice.

Target Audience

- IT Managers, IT staff and process owners
- Application, project and business managers directly involved in IT
- Any member of IT organizations looking for process improvements

Prerequisites

There are no mandatory prerequisites, although experience in an IT environment is highly recommended.
